

48 · The Second Time We Kille

The Second Time We Killed a Model on Purpose

01 · THE IDEA

We tried our forecasting model on gold and silver. Measured it properly first. Information Coefficient, how well a predi

48 · The Second Time We Kille

The Second Time We Killed a Model on Purpose

02 · HOW IT WORKS

It came back negative. Worse than a coin flip.

48 · The Second Time We Killed

The Second Time We Killed a Model on Purpose

03 · WHY IT MATTERS

We disabled the XAG and XAU variants the same day we saw the number. Not retrained. Not tuned. Turned off.
