

54 · Splitting the Order, Not

Splitting the Order, Not Just the Position

01 · THE IDEA

A trading model's forecast decides direction and size. It doesn't decide how you get filled. That's a separate disciplin

54 · Splitting the Order, Not

Splitting the Order, Not Just the Position

02 · HOW IT WORKS

One fix. Split the entry. Half fills at market. The other half sits as a limit order sized off ATR, waiting for a pullba

54 · Splitting the Order, Not

Splitting the Order, Not Just the Position

03 · WHY IT MATTERS

The limit half used to be Good-Til-Cancelled. It would sit open indefinitely. Now it's Good-Til-Date, a server-side expi
